Using the protective cover .....	2
----------------------------------	---

---

**USING THE PROTECTIVE COVER**

---

**1. Unpacking**

Remove the protective cover from the packaging and unfold it. Also pull out the telescopic rod

**2. Lift the protective cover up**

Then press the eyelet at the top of the cover and the strap on the zipper apart so that it is easier to hook the telescopic rod in there. Then press the eyelet at the top of the cover and the strap on the zipper apart so that it is easier to insert the hook of the telescopic rod.

### 3. Putting on the protective cover

Reach around the umbrella with your free arm and place one side of the cover around the sunshade so that it can be placed on the top plate. Hang the telescopic rod with the other hook into the strap on the zipper and close the cover. Close the cover until you can reach the zipper strap with your hand.

**Notice:** When closing the zipper, make sure that the membrane is not caught in the zipper.

### 4. Closing the protective cover

Retract the telescopic rod, place it in the pocket on the inside right of the cover and secure it at the top with the Velcro fastener. Then close the cover completely and tie it at the bottom.
